## specifications:

### CONSTRUCTION FEATURES:

- All welded frame of heavy steel rigidity and permanent alignment.
- Construction is 1.6mm gauge steel included in all linings. Oven base are 2mm gauge steel with raised sides and back to catch spillage. A 2mm gauge steel baffle protects the oven base from direct burner contact.
- High capacity 26Mj open burners evenly and efficiently distribute top heat.
- Option of open burners, solid even heat plates or target top.
- Option of half open burners and half even heat plates.
- Hot top plate manufactured from heavy cast iron engineered for maximum and even heat distribution.
- Large, heavy duty 456mm trivets available on open burners.
- Oven interior is completely porcelain enamelled, producing better heat distribution; preventing rust and for ease of cleaning.
- Large capacity oven, fully insulated and sealed 710mm wide x 560mm deep x 355mm high, accepts large roasting or baking and gastronorm pans.
- Oven burners are heavy duty 32Mj for quick recovery.
- Oven engineered to provide accurate temperature control and even heat distribution. Automatic oven safety pilots are standard for positive oven lighting.
- Spring balanced oven door construction for trouble free operation time after time.
- 2 chrome plated non-tilt oven racks, with rear plate guard, standard with each oven.
- Oven interior is easily removable with no tools for cleaning.
