PE-S SERIES HEAVY DUTY ELECTRIC RANGE

In designing this range, cleaning and accessibility for service and maintenance have been detailed to produce a safe, efficient range.

The hob is all stainless steel with formed spillage area and hermetically sealed cooking plates. Two heavy duty non-tilt chrome plated shelves are standard.

This series is a heavy duty electric range to gastronorm standard with static or convection oven.

Static Oven

The static oven height is a high 355mm, allowing ample room for large roasts and baking dishes. (European imports have only 288mm & 300mm high ovens).

The oven interior is easy cleaning vitreous steel and the panels are quickly and easily removed for cleaning in the sink.

Elements are incaloy sheathed and are fitted both top and bottom of the oven.

Top elements are for grilling, mornay finishing & browning.

Bottom elements are for all dishes requiring gentle top heat.

Combine the two for an evenly heated oven, ideal for roasting, baking & pastry making.

Convection Oven

Convection oven is all stainless steel interior. Incaloy elements surrounding fan for even heat distribution.

Also available with open high capacity radiant elements (see PE Model brochure)
