PERFORMER 800 SERIES RANGE

Specifications:

SPACE AND ENERGY SAVER PF-40 SERIES RANGES

- Precision control and efficient heat distribution in oven.
- Jumbo oven takes 6 x 2/1 full sized gastronorm dishes on 2 shelves, largest range oven available in Australia.
- Fan forced electric convection oven - optional extra
Please Note: gas fan forced convection oven not available in this model.
- Instant top heat with open top or griddle/open top combination.
- Available with solid even heat trivets, interchangeable with open burner trivets
- Cook top trivets are cast iron with built in spillage bowls to improve fuel economy and ensure pilot protection.
- Easily removable oven base, making cleaning simple.

PF-8-40

STATIC OVEN SPECIFICATIONS

- All welded frame of heavy steel for rigidity and permanent alignment.
- Construction is 1.6mm steel including all linings. Oven bottoms are 2mm steel with raised sides and back to catch spillovers. A 2mm steel baffle protects oven bottoms from direct burner flame.
- Satellite cast iron open-top burners evenly and efficiently distribute heat at 26mj each.
- Flame failure to 20mm griddle plate standard equipment with "H" type cast iron burners.
- Large capacity, fully insulated and sealed ovens designed for even distribution of heat. Ovens are ample in size for large baking and roasting pans.
- Heavy duty cast iron oven burner rated at 32mj per hour. Thermostats are out of the high heat zone for accurate temperatures.
- 100% automatic oven safety pilots are standard equipment for positive oven lighting.
- Oven interior is completely porcelain enamelled. Easily removable for cleaning (no tools). Gastronorm sized.
- Spring balanced oven door construction for trouble free operation.
- Two chrome plated oven racks standard for each oven. Non-tilting, with rear plate guard.
- Rear gas or bottom entry connections are standard.
- Optional extra flame failure to open burners.

CONVECTION OVEN SPECIFICATIONS:

- Oven interior stainless steel.
- Oven interior sealed with a 9kw 3 phase element for fast heat-up and high capacity cooking.
- All welded frame of heavy steel for rigidity and permanent alignment.
- Large capacity, fully insulated and sealed ovens designed for even distribution of heat. Ovens are ample in size for large baking and roasting pans.
- Satellite cast iron open-top burners evenly and efficiently distribute heat at 26mj each.
- Spring balanced oven door construction for trouble free operation.
- Two chrome plated oven racks standard for each oven. Non-tilting, with rear plate guard.
- Front manifold or rear gas or bottom entry connections are standard.
- Optional extra flame failure to open burners.
