# ● CHAR-GLO HEAVY DUTY BROILERS ●

Non fire hazard. Only CHAR-GLO has positive grease and flame control. With special lever you can tilt broiling grates to any angle desired. Up to 75% of the grease, therefore, does not drip onto the heating radiants and cause dangerous fire hazards. Instead it follows the angle of the top grates to the front of the broiler. The grease is then caught in a trough and drained away to a drip can below; easily removed for cleaning.

For the popular "char-broiled" flavour. The CHDS Models are equipped with long lasting ceramic coals that have the appearance of charcoal. These ceramic coals provide the same attractive and tasteful broiling results, but without the mess or high cost of charcoal. and heating up to broiling temperature is quick... in just 15 minutes. These models are widely used for exhibition broiling. Patrons like to watch the chef "char-broil" their steaks, chops, hamburgers, chicken or fish on these handsome stainless steel CHAR-GLO BROILERS.

## specifications

### CONSTRUCTION FEATURES

- Stainless steel top and front.
- 38mm layer of fibreglass insulation.
- Burners are Goldstein exclusive cast iron "H" burners, giving perfect distribution of heat over the cooking surface.
- Either Natural or Propane gas can be used to fire CHAR-GLO Broilers.
- Gas affords the ultimate in economy with cleanliness and simplicity.

### EASY INSTALLATION!

- Compact and streamlined, CHAR-GLO Heavy Duty Broilers can be set up almost anywhere. Just install CHAR-GLO under hood or ventillator.
